Computer Science Reports 04/18
Eindhoven, 23rd August 2004

Table of Content

WORKSHOP 1:	
EAW'04: Engineering the Adaptive Web	1
Reasoning about Learning Object Metadata for Adapting SCORM Courseware <i>Matteo Baldoni, Cristina Baroglio, Viviana Patti and Laura Torasso</i>	5
Development of Software Tools for Designing Intelligent Tutoring Systems <i>Ildar Galeev, Larissa Tararina and Oleg Kolosov</i>	15
Adaptive Tourist Suggestions for a Commercial Web Site <i>Cristina Gena and Maria Orfino</i>	21
Personalization Functionality for the Semantic Web: Architectural Outline and First Sample Implementations <i>Nicola Henze and Matthias Kriesell</i>	27
Adaptive Web Information Systems: Architecture and Methodology for Reusing Content <i>Sébastien Iksal and Serge Garlatti</i>	37
Navigational Properties and User Attributes for Modelling Adaptive Web Applications <i>Gonzalo Rojas, Vicente Pelechano and Joan Fons</i>	53
Plasticity in Mobile Devices: a Dichotomic and Semantic View <i>Montserrat Sendin and Jesús Lorés</i>	59
Adaptive Hypermedia in the AdaptWeb Environment <i>Mariusza Warpechowski, José Palazzo Moreira de Oliveira, Maria Aparecida Martins Souto, Daniela Leal Musa, Maria Angélica de O. Camargo Brunetto, Veronice de Freitas, Mário Lemes Proença Jr.</i>	69
WORKSHOP 2:	
Individual Differences in Adaptive Hypermedia	75
Accommodating Learning Style Characteristics in Adaptive Educational Hypermedia Systems <i>Kyparissia A. Papanikolaou and Maria Grigoriadou</i>	79
End-User Quality of Experience Layer for Adaptive Hypermedia Systems <i>Cristina Hava Muntean and Jennifer McManis</i>	89
Evaluating Presentation Strategy and Choice in Adaptive Multiple Intelligence-based Tutoring System <i>Declan Kelly and Brendan Tangney</i>	99
Considering Human Memory Aspects to Adapting in Educational Hypermedia <i>Peter Agh and Maria Bielikova</i>	109
Discovery of Individual User Navigation Styles <i>Eelco Herder and Ion Juvina</i>	119
Designing an Adaptive Feedback Scheme to Support Reflection in Concept Mapping	129

<i>Evangelia Gouli, Agoritsa Gogoulou, Kyparisia Papanikolaou and Maria Grigoriadou</i>	
Adaptation Rules Relating Learning Styles Research and Learning Objects Metadata <i>Charalampos Karagiannidis and Demetrios Sampson</i>	139
Adapting Hypermedia to Cognitive Styles: Is it necessary? <i>Timothy Mitchell, Sherry Y. Chen and Robert Macredie</i>	149
WORKSHOP 3:	
Empirical Evaluation of Adaptive Systems	159
Proposed Evaluation Framework for Adaptive Hypermedia Systems <i>Arpita Gupta and P. S. Grover</i>	161
The First Click is the Deepest: Assessing Information Scent Predictions for a Personalized Search Engine <i>Karen Church, Mark T. Keane and Barry Smyth</i>	173
Evaluating Intelligent Tutoring Systems with Learning Curves <i>Brent Martin and Antonija Mitrovic</i>	183
Evaluation of Effects on Retrieval Performance for an Adaptive User Model <i>Hien Nguyen, Eugene Santos Jr., Qunhua Zhao and Chester Lee</i>	193
An Example of Evaluation Applied to a Course Adapted to Learning Styles of CHAEA's Test <i>M^a del Puerto Paule Ruiz, Juan Ramón Pérez Pérez and Martín González Rodríguez</i>	203
Evaluating a General-Purpose Adaptive Hypertext System <i>Chris Staff</i>	211
Evaluation Experiments and Experience from the Perspective of Interactive Information Retrieval <i>Ross Wilkinson and Mingfang Wu</i>	221
